

CA Collaborative Fisheries Research Program 2009 Trapping Project Overview

We have successfully completed our second field season! Between the months of July and September, 2009, we completed 24 survey days, gathering data to monitor California marine protected areas (MPAs, see map) using commercial fish traps. This work was a collaborative effort among commercial fishermen in Monterey and Morro Bay, CA and scientists at Moss Landing Marine Laboratories and Cal Poly San Luis Obispo (SLOSEA). This project is part of the CA Collaborative Fisheries Research Program (CCFRP). It complements the CCFRP hook-and-line MPA monitoring surveys that have been conducted annually since 2007.

In 2009, the Point Lobos and Piedras Blancas State Marine Reserves (SMRs), and Cambria State Marine Conservation Area (SMCA) were surveyed. In addition, nearby reference sites were surveyed with equal effort.

Point Lobos SMR

Piedras Blancas SMR

Cambria SMCA

Morro Bay

MPAs Surveyed by the 2008 CCFRP Trapping Project

0 5 10 Naudical Miles

122°00°W

121°00°W

The following are preliminary data for the 2009 CCFRP commercial trapping surveys conducted within the marine protected areas (MPA) and corresponding reference sites (REF). Listed are the survey dates and sites, the number (#) of traps set, and number of fishes and invertebrates caught.

<u>Date</u>	<u>Site</u>	# Traps	# Fishes	# Inverts
Point Lobos				
2-Aug	MPA	60	94	122
3-Aug	REF	60	85	96
4-Aug	MPA	60	48	55
5-Aug	REF	60	52	87
1-Sep	REF	40	29	33
2-Sep	MPA	60	77	55
3-Sep	REF	10	8	12
8-Sep	MPA	38	25	25
8-Sep	REF	20	44	17
Totals		408	462	502

- Mike Ricketts, F/V Sea Hawk
- •Roger Cullen, F/V *Dorado*
- •Tom Hafer, F/V Kathryn H

2009 Fish and Invertebrate Catch

Invertebrates:

<u>Sea Stars</u>: 6-armed, Bat, Giant Pink, Giant Spined, Leather, Rainbow, Smooth Brittlestar, Sunflower

<u>Crabs</u>: Brown Rock, Decorator, Dungeness, Loxorhyncus spp. (photo 1), Northern Kelp (photo 2), Red Rock, Slender, Spider

Other: Blue Top Snail, Dusky Turban Snail, Gumboot Chiton, Black Turban Snail, Purple-ring Top Snail

Fishes:

Rockfishes: Black-and-Yellow, Blue, Brown, China, Copper, Gopher, Grass, Kelp, Treefish (photo 4)

Other: Cabezon (photo 3), Kelp Greenling, Lingcod, Swell Shark, Wolf Eel

Some of the Largest Fishes Caught

Cabezon:

- •52 cm (20 in), caught August 31st in the Cambria Reference site
- •49 cm (19 in), caught August 2nd in the Point Lobos MPA site
- 49 cm (19 in), caught September 1st in the Point Lobos Reference site

Lingcod:

- •72 cm (28 in), caught August 21st in the Piedras Blancas MPA site
- •70 cm (28 in), caught August 4th in the Point Lobos MPA site
